

Kitten Season in High Gear

Contributed by Administrator
Tuesday, 16 June 2009

It's official -- kitten season is here, and going strong once again. In May we set a new single-day record admitting 114 cats and kittens for spay/neuter at our monthly Care Day (another 10 for medical care). Although only 2 weeks had elapsed since our big May event, we still admitted 67 cats and kittens for spay/neuter at our June Care Day (another 6 for medical care).

Remember, get those kittens spayed/neutered before adoption. FBI's vets will perform surgeries on healthy kittens as small as 2 lbs., which is about 2 months of age.
